

# Modular Broach Handle

Delivers proven functionality with versatility.

The Enztec Modular Broach Handle is designed to connect with powered devices or Enztec's Modular Anvil. It enables both powered and manual broaching, giving surgeons flexibility across different workflows.

With decades of experience supplying broach handles, Enztec can accommodate a wide range of broach connections, with attention to control, balance, and tactile feedback.

We collaborate with you to tailor the instrument to your workflow and procedural requirements.
