

Femoral Impactor

Femoral Impactor

The Femoral Impactor provides a reliable, stable grip of implants and control of impaction loads to ensure correct placement of femoral components.

Features:

- Over 10 years of clinical history, with over 18,000 units sold
- A range of standard arm tips available to ensure a secure hold of femoral components
- Impactor head is replaceable if required due to cement deposit adhesion etc.

Enztec is focused on the design and manufacture of orthopaedic instruments. We are a proven, quality approved supplier to all major orthopaedic implant companies and welcome your enquiries.
